Welcome **Message**

"Welcome to Zigwik — the world's first AI-powered marketplace for services! Our mission is simple: to revolutionize how services are offered and booked, making the process seamless, efficient, and rewarding for everyone. Whether you're an expert looking to share your skills or a user searching for top-quality services, Zigwik empowers you with cutting-edge automation, intelligent marketing, and effortless operations.

Join us in shaping the future of service transactions!

"

- Eshanku Pandey -

CEO-Founder

About **Company**

Zigwik is a pioneering AI-powered marketplace for services, designed to seamlessly connect service providers with users worldwide. Acting as an Operating System for Services, Zigwik enables anyone to offer their expertise—whether it's educational courses, expert consultations, fitness training, or other professional services—while allowing users to effortlessly discover and book these offerings.

Unlike traditional, unorganized service markets, Zigwik provides an intelligent, automated, and optimized platform that simplifies both marketing and operations for service providers. With AI-driven sales funnels, dynamic pricing, SEO-enabled offers, and smart booking workflows, Zigwik ensures maximum visibility, increased bookings, and smooth transactions.

If Amazon revolutionized e-commerce for products, Zigwik is doing the same for services—empowering individuals and businesses to monetize their time efficiently while helping users find the best services tailored to their needs.

*Time is single most
important factor for
all services*

Vision & Mission

Vision

Our vision is to become the world's leading marketplace for services, where anyone, anywhere can effortlessly monetize their expertise and find the right service at the right time. By leveraging AI, automation, and smart workflows, Zigwik strives to create a frictionless service economy that enhances productivity and connects people globally.

Mission

At Zigwik, our mission is to empower individuals and businesses by providing an intelligent, AI-driven platform for seamless service offerings and bookings. We aim to revolutionize the service industry by eliminating inefficiencies, optimizing operations, and making high-quality services accessible, convenient, and affordable for everyone.

Our Service

By integrating AI, automation, and smart workflows, Zigwik eliminates the challenges of marketing and operations, making it the ultimate platform for service-based professionals and businesses.

AI-Powered Service Marketplace

Zigwik acts as an Operating System for Services, allowing individuals and businesses to offer and book services effortlessly. Users can create service listings, set availability, and get discovered by potential clients. With AI-driven recommendations and SEO-optimized offer pages, service providers can attract more bookings without additional marketing efforts.

Smart Scheduling & Time-Sharing Algorithm (Patent-Pending)

Zigwik has developed the most advanced time-sharing algorithm, enabling service providers to offer their time dynamically. Users can book available slots in real-time, reducing scheduling conflicts and maximizing efficiency. Whether it's one-on-one consultations, group classes, or location-based services, Zigwik ensures seamless booking and automated notifications.

Automated Marketing & Sales Funnel

Zigwik helps service providers increase visibility and conversions through AI-driven marketing tools, including:

- Personalized AI notifications to potential clients based on search behavior
- Automated dynamic pricing & discounts to boost bookings
- AI-generated offer pages & profiles optimized for conversions
- SEO-enabled listings that rank higher on Google
